

SDOT Major Projects Division Overview

Tuesday, June 26, 2012

SDOT Major Projects Division Origins

2002: Strategic Planning Office disbanded, new division and functions formed in SDOT (Policy, Planning & Major Projects)

- Major Projects focus on large projects constructed by other agencies, and closely related City-led projects
- Most projects in pre-design phases with significant policy and planning issues

SDOT Major Projects – Moving Forward

2006: “Full speed ahead”... maybe

- Major Projects split from Policy & Planning
- South Lake Union Streetcar starts construction

2008 – 2010 construction starts

- King Street Station roof and clock tower
- Sound Transit University Link
- WSDOT – AWW Holgate to King

East Marginal Grade Separation (Port of Seattle)

SDOT Major Projects – Looking Ahead

Construction underway...

- First Hill Streetcar
- King Street Station seismic retrofit
- King County South Park Bridge
- WSDOT Alaskan Way Viaduct replacement

Coming soon...

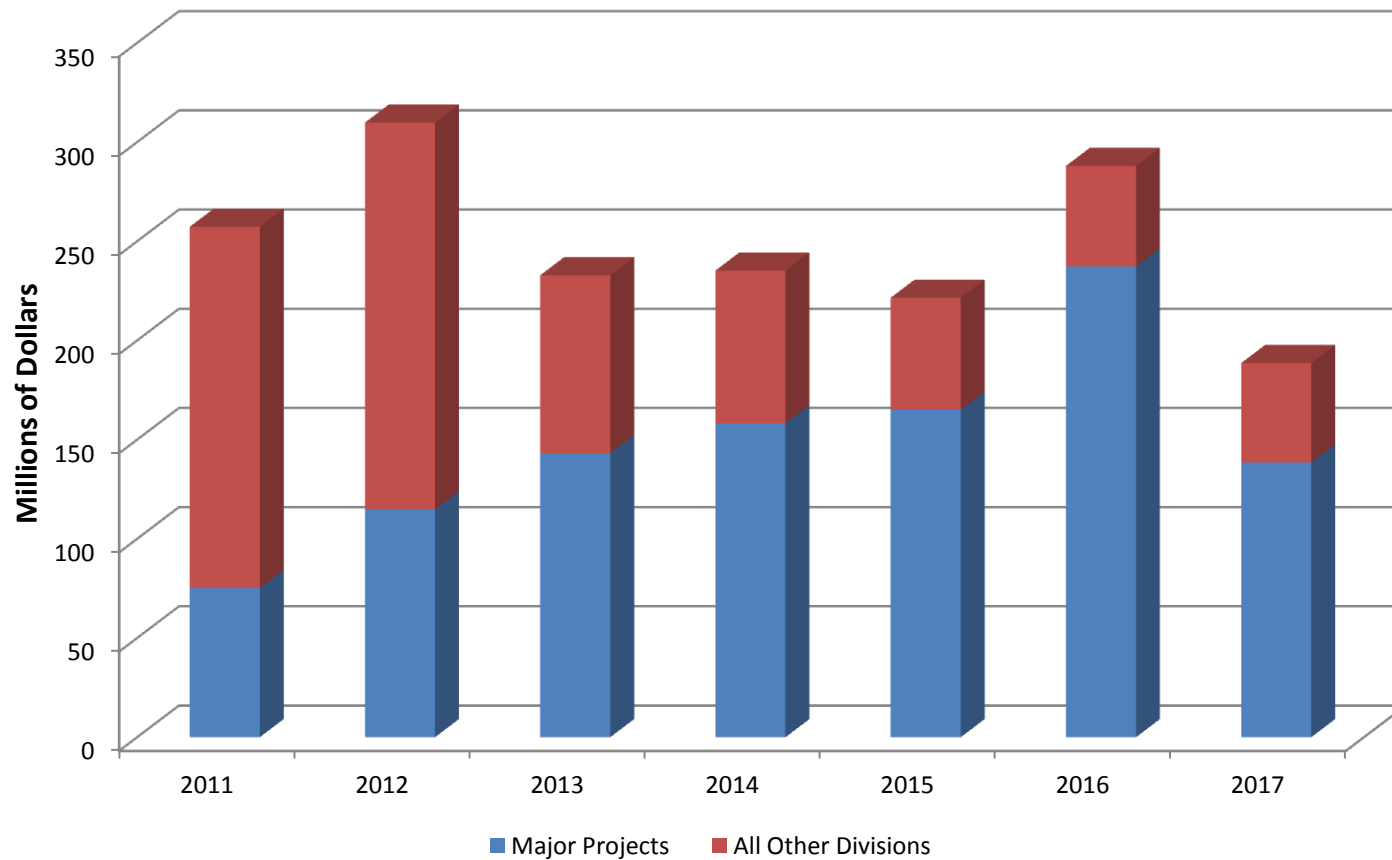

- WSDOT SR-99 Trestle Replacement and Port of Seattle Argo Truck Access
- Elliott Bay Seawall funding strategy solidified

Moving forward...

- Central Waterfront concept design completed

Major Projects and SDOT CIP

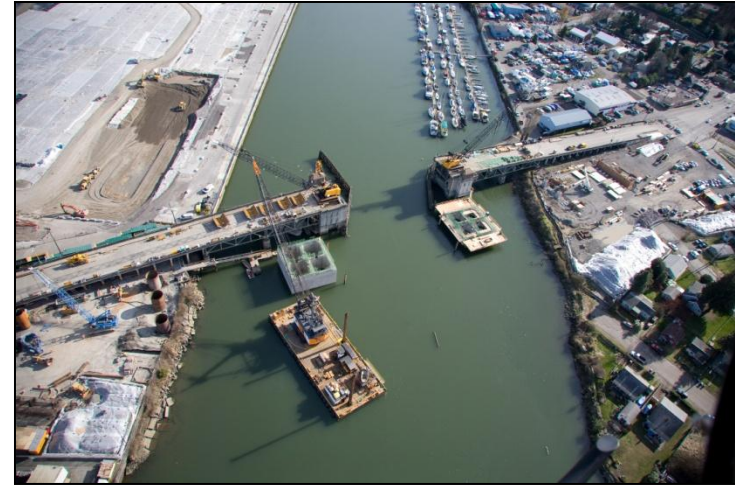

Interagency Program Management

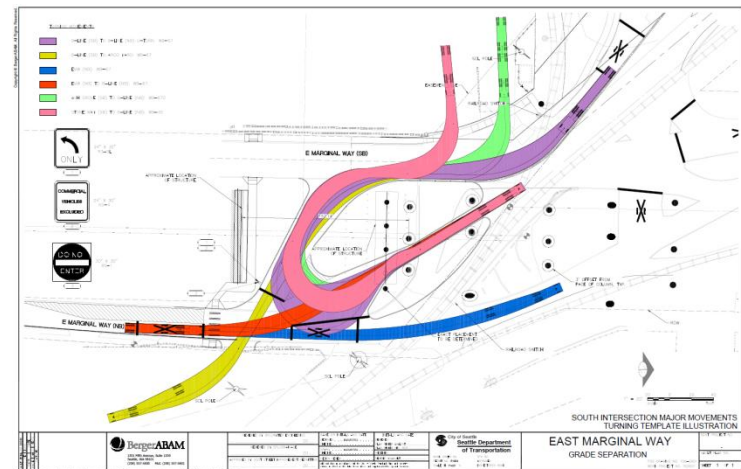

- “Partner” vs. “Regulator”

SR-520 (WSDOT)

South Park Bridge (King County)

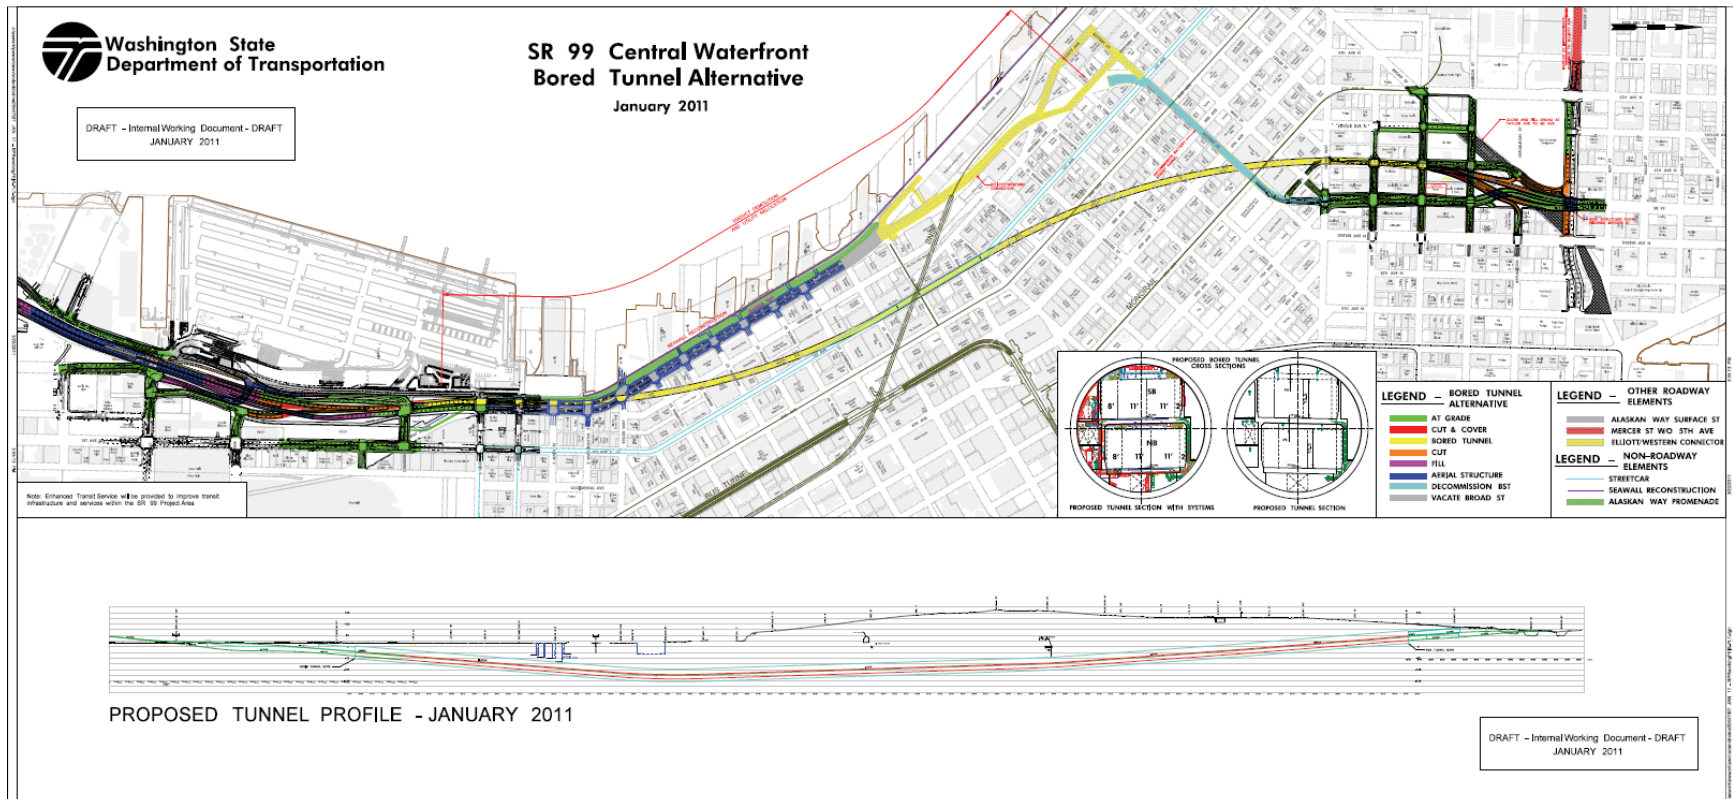

Argo Truck Access (Port of Seattle)

Interagency Program Management

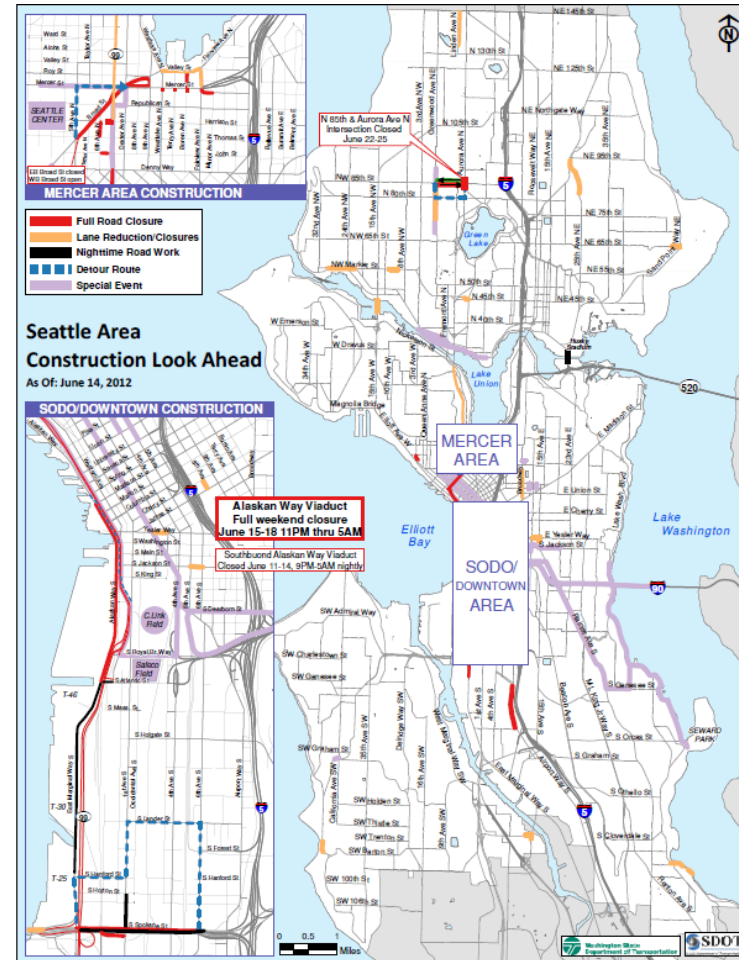

- Coordination – within SDOT, interdepartmental, interagency
 - Design review
 - Permitting
 - Inspection
 - Acceptance

Construction Coordination

- Weekly broadcast
- On-line map and info
- Coordination with:
 - WSDOT, other agencies
 - SDOT Street Use (permits)
 - SDOT Traffic (traffic control plans)
